What's New in June

Publishing this Month

Firewall Fundamentals

Wes Noonan and Ido Dubrawsky • ISBN: 1-58705-221-0 • SRP: US \$50.00

The essential guide to understanding and using firewalls to protect your computer and your network. *Firewall Fundamentals* introduces readers to firewall concepts and explores various commercial and open source firewall implementations—including Cisco®, Linksys, and Linux—allowing network administrators and small office/home office computer users to effectively choose and configure their devices.

QoS for IP/MPLS Networks

Santiago Alvarez • ISBN: 1-58705-233-4 • SRP: US \$55.00

A comprehensive guide to implementing QoS in multiservice networks using IP/MPLS. *QoS for IP/MPLS Networks* offers network architects and engineers a single source of information for the design, deployment, and implementation of QoS-enabled services on an MPLS network using Cisco IOS®. The readers will gain knowledge of the technology behind MPLS QoS and related technologies and will learn the different design options available to build a multiservice MPLS network.

Switching Basics and Intermediate Routing CCNA 3 Companion Guide

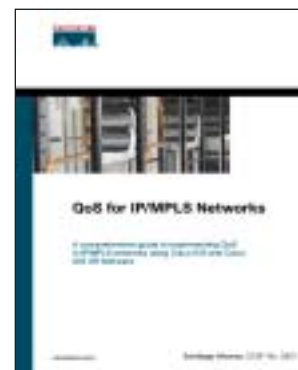

Wayne Lewis • ISBN: 1-58713-170-6 • SRP: US \$37.95

Switching Basics and Intermediate Routing CCNA 3 Companion Guide is the official supplemental textbook for the CCNA® 3 course of the Cisco Networking Academy® Program. Completely revised from the previous edition with new examples and explanations, this textbook includes original material developed by the author, and it fully aligns with the CCNA 3 (version 3.1.1) curriculum from Cisco Systems®.

WAN Technologies CCNA 4 Companion Guide

Allan Reid • ISBN: 1-58713-172-2 • SRP: US \$37.95

WAN Technologies CCNA 4 Companion Guide is the official supplemental textbook for the CCNA 4 course of the Cisco Networking Academy Program. The completely revised and only authorized textbook for the CCNA 4 (version 3.1.1) curriculum from Cisco Systems, the portable reference features improved readability, enhanced topic explanations, real-world examples, and all-new graphical presentations.

Visit www.ciscopress.com/usergroup to register to win today; two winners will receive a Library.

CCNA Official Exam Certification Library, Second Ed.

Wendell Odom • ISBN: 1-58720-169-0 • SRP: US \$59.95

The revised edition of the No. 1 selling exam preparation product now contains 30 minutes of visual instruction from Wendell Odom. The *Library* includes the most current printings of *CCNA ICND* and *CCNA INTRO Exam Certification Guides*, First Editions. The three video labs on CD-ROM reinforce conceptual knowledge, hone configuration skills, and better prepare candidates for the practical portion of the CCNA exam.

One entry per person please; duplicates are discarded.

Monthly Group Giveaway

Cisco Press will donate two complimentary copies of the following titles to each Cisco User Group for meeting purposes. A chapter excerpt is available for online groups per request.

Storage Networking Protocol Fundamentals

James Long • ISBN: 1-58705-160-5 • SRP: US \$55.00

Advanced Host Intrusion Prevention with CSA

Chad Sullivan, Jeff Asher, and Paul Mauvais • ISBN: 1-58705-252-0 • SRP: US \$65.00

Featured User Group: Orange County Cisco Users Group

The Southern California User Group provides industry insight and continued education through presentation, case studies, and demonstrations. Using a Cisco Systems centric approach to networking, experts and industry professionals showcase the latest trends and solutions to common current issues.

The group meets monthly and has the following speakers scheduled:

- June 15—John Gormally, Cisco Systems
- July 20—Brian Herbert, OPNET
- August 17—John Willsey, NetQOS

To learn more about the Orange County Cisco Users Group visit www.occug.org.
